	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week:	<i>Day off</i>	<i>easy run</i>	GRP run (longer)	<i>easy run & strength</i>	<i>Day off</i>	<i>long run</i>	cross train
1	OFF	Run: 3 miles easy	Run: 4 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 5 miles	60 min easy bike / walk / swim
2	OFF	Run: 3 miles easy	Run: 4 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 6 miles	60 min easy bike / walk / swim
3	OFF	Run: 3 miles easy	Run: 4 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 7 miles	60 min easy bike / walk / swim
4	OFF	Run: 3 miles easy	Run: 4 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 5 miles	60 min easy bike / walk / swim
5	OFF	Run: 3 miles easy	Run: 5 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 8 miles	60 min easy bike / walk / swim
6	OFF	Run: 3 miles easy	Run: 5 miles GRP	Run: 3 miles easy Strength (optional)	OFF	Run: 9 miles	60 min easy bike / walk / swim
7	OFF	Run: 4 miles easy	Run: 5 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 6 miles	60 min easy bike / walk / swim
8	OFF	Run: 4 miles easy	Run: 6 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 11 miles	60 min easy bike / walk / swim
9	OFF	Run: 4 miles easy	Run: 6 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 12 miles	60 min easy bike / walk / swim
10	OFF	Run: 4 miles easy	Run: 6 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 9 miles	60 min easy bike / walk / swim

11	OFF	Run: 4 miles easy	Run: 7 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 14 miles	60 min easy bike / walk / swim
12	OFF	Run: 4 miles easy	Run: 7 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 15 miles	60 min easy bike / walk / swim
13	OFF	Run: 4 miles easy	Run: 7 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 13 miles	60 min easy bike / walk / swim
14	OFF	Run: 4 miles easy	Run: 8 miles GRP	Run: 4 miles easy Strength (optional)	OFF	Run: 17 miles	60 min easy bike / walk / swim
15	OFF	Run: 5 miles easy	Run: 8 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 18 miles	60 min easy bike / walk / swim
16	OFF	Run: 5 miles easy	Run: 8 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 13 miles	60 min easy bike / walk / swim
17	OFF	Run: 5 miles easy	Run: 5 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 19 miles	60 min easy bike / walk / swim
18	OFF	Run: 5 miles easy	Run: 8 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 12 miles	60 min easy bike / walk / swim
19	OFF	Run: 5 miles easy	Run: 5 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 20 miles	60 min easy bike / walk / swim
20	OFF	Run: 5 miles easy	Run: 4 miles GRP	Run: 5 miles easy Strength (optional)	OFF	Run: 12 miles	60 min easy bike / walk / swim
21	OFF	Run: 5 miles easy	Run: 3 miles GRP	Run: 5 miles easy	OFF	Run: 8 miles	60 min easy bike / walk / swim
22	OFF	Run: 4 miles easy	Run: 2 miles GRP	Run: 4 miles easy	OFF	RACE PREP 20 min easy run	RACE DAY!!! Run 26.2 miles

Run Training Terminology

Designed by: Mary Kelley | (610) 766-1297 | mary@aim4tri.com
www.aim4tri.com

Always warm-up for at least 10-15 min and cool-down for 5 min during every workout. Include mostly easy running w/ a few accelerations & drills.

'=== MAF Test === *(INTERMEDIATE & ADVANCED PLANS ONLY)

Short for "Maximum Aerobic Fitness" Test. This test requires a heart rate monitor, and is best performed on a treadmill (incline = 1.0%) or an INDOOR track. Warm-up for 10-15 minutes, including several 30-60sec accelerations. Immediately, start a 5-mile run, maintaining a precise heart rate of 145* throughout. Time and record each mile (use the split function of your watch/HRM so you don't have to memorize them). If your heart rate goes more than 2 BPM over your target, walk until it drops into range, but attempt to maintain a steady pace. Your first mile should be your fastest, and you should slow slightly with each one.

Note: Heart Rates vary from person to person. It's best to perform a heart rate test (like the 30 min TT on the schedule), email the results to Coach Mary and ask her for your Heart Rate Zones to target your accurate maximum aerobic heart rate.
Record EVERY MILE SPLIT exactly, and any variances in HR.

===Cross Train (XT)===

These should be at a comfortable pace, so that you are actively recovering during the workout. Choose a gentle aerobic activity OTHER than running. Walking, swimming, cycling, elliptical, or some combination of these are ideal. Pay attention to perfect form and do plenty of drills, especially while swimming. These workouts will allow your body to recover more quickly after hard or long run efforts.

If you want to know if you're working hard enough (or too hard), use any one of the following:

Heart Rate: less than 65 percent of your maximum heart rate

Perceived Exertion: A 5 on a 1-to-10 scale (a comfortable effort would be a 5; an "all-out" 30-sec sprint would be a 10)

Talk Test: Chatting with a friend should be possible throughout this workout.

=== GRP === *(INTERMEDIATE & ADVANCED PLANS ONLY)

Short for "Goal Race Pace." These are also known as "Sub-Threshold" workouts in the context of marathon training.

Following a 10-15 min warm-up including a few short accelerations, pick up the pace to your goal race pace, or what feels "comfortably hard," and hold that pace for the suggested distance. Cool-down with 5-10 min easy running.

If you want to know if you're working hard enough (or too hard), use any one of the following:

Heart Rate: 80 to 85 percent of your maximum heart rate

Perceived Exertion: An 8 on a 1-to-10 scale (a comfortable effort would be a 5; an "all-out" 30-sec sprint would be a 10)

Talk Test: A question like "Pace okay?" should be possible, but conversation won't be.

===Long===

These are sometimes called "LSD" or Long, Slow Distance workouts. These should be at a comfortable pace, and focus on increasing your endurance without completely exhausting yourself. Pay attention to perfect form. *Note: These "long" workouts may be shorter than what you're used to doing now, in which case, you can increase the duration as necessary.*

If you want to know if you're working hard enough (or too hard), use any one of the following:

Heart Rate: 65-70 percent of your maximum heart rate

Perceived Exertion: A 5-6 on a 1-to-10 scale (a comfortable effort would be a 5; an "all-out" 30-sec sprint would be a 10)

Talk Test: Chatting with a friend should be possible throughout this workout.

===easy===

These should be at a comfortable pace, so that you are actively recovering during the workout. Pay attention to perfect form and do plenty of drills, especially while swimming. If you must skip a workout, make it this one, instead of a long or quality day.

If you want to know if you're working hard enough (or too hard), use any one of the following:

Heart Rate: less than 65 percent of your maximum heart rate

Perceived Exertion: A 5 on a 1-to-10 scale (a comfortable effort would be a 5; an "all-out" 30-sec sprint would be a 10)

Talk Test: Chatting with a friend should be possible throughout this workout.

===Strength=== *NOT USED IN BEGINNER PLANS SHORTER THAN 12 WEEKS*

This is optional to include in your schedule. If you need more time for recovery, skip it. The purpose of these workouts are to increase strength, not endurance, so use heavy enough weights that completing 1 set of 8-12 reps is **very** difficult. Move quickly between each exercise without resting, until all exercises are complete. Perform the entire range of motion with moderate timing (no momentum -- 3 seconds to lift, pause 1 second, lower for 5 seconds). These sessions should take 20-30 minutes total. If you want to schedule a personal training session with Coach Mary or another trainer employing this method at Main Line Health & Fitness in Bryn Mawr, call (610) 766-1297 (Mary's cell) or (610) 527-2200 (Main Line Health & Fitness).

Perform 1 set of 8-12 reps for each:

- Hip Extension or "Butt Blaster" or Back Extension
- Leg Extension (for your quadriceps)
- Hamstring Curl
- Leg Press or Squat
- Pullover (optional -- most gyms do not have this machine. If not, skip it.)
- Lat Pulldown or Pull-Ups or Low Row
- Chest Press or Bench Press or Pec Fly
- Bicep Curls
- Tricep Extension or Dips
- Ab Crunch or Rotary Torso

OPTIONAL Strength workout (if you have no equipment/weights):

Perform the following twice through, with minimal rest in between exercises:

- 10-20 x Squats with arms overhead
- 10-20 x Hip bridges (lying on back)
- 20-40 x crunches with bicycle legs
- 15-30 push-ups
- 10-15 dips on a bench

=====

Coach Mary offers **group workouts** to prepare runners for running events and triathlons. All levels are welcome at these workouts. Schedule and details can be found at: <http://www.aim4tri.com/calendar.html>

=====

Please let me know if you have any questions!

Enjoy!
